**Tracknet 1.02 installation NOTES**

This README file covers some instructions before you start using Tracknet 1.02:

1. Extract the contents of the tracknet.zip into your document root.

\* To configure Tracknet 1.02: from your browser type <http://localhost/tracknettrial>, in your address bar and follow the instructions.

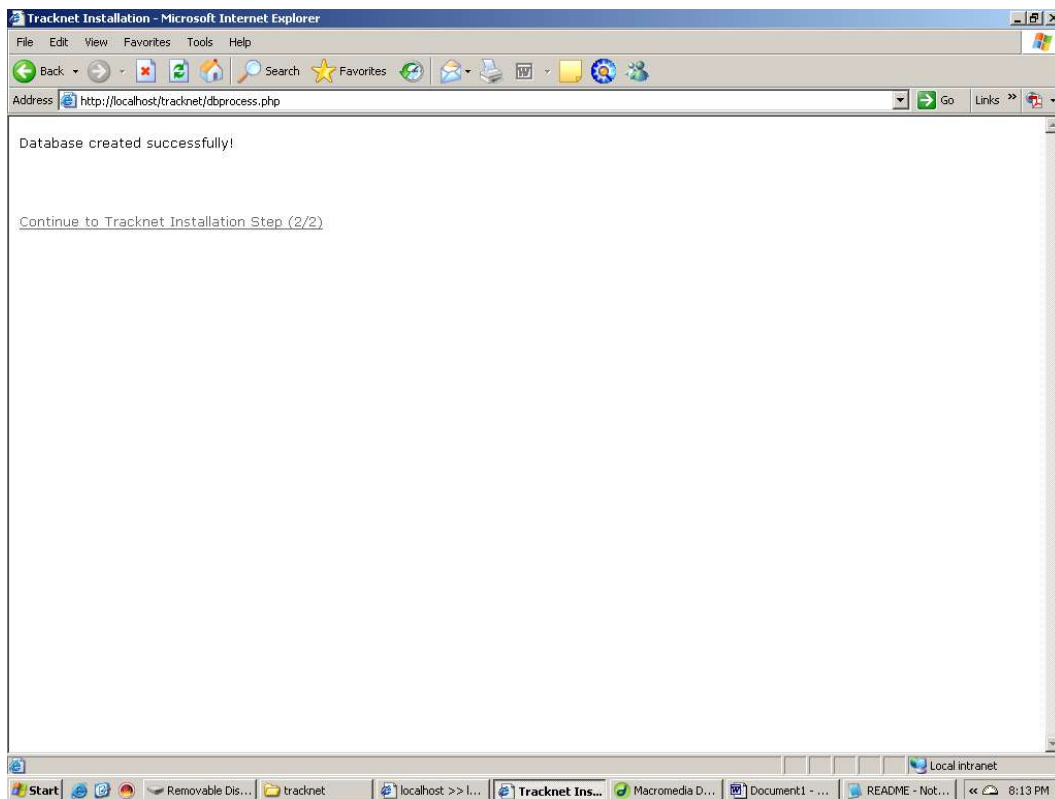

**Step1**

The screenshot shows a Microsoft Internet Explorer window titled "Tracknet Installation - Microsoft Internet Explorer". The address bar displays "http://localhost/tracknet/install.php". The main content area features the "tracknet 1.02" logo at the top. Below the logo, the text "Tracknet Installation (Step 1/2)" is centered. The installation form consists of three labeled input fields: "Database Server:" with the value "localhost", "Database Username:" with the value "root", and "Database Password:" which is empty. Each field has a small red asterisk to its right. A blue "Continue" button is positioned to the right of the password field. The Windows taskbar at the bottom shows the Start button, several open applications including "Removable Dis...", "tracknet", "localhost >> l...", "Tracknet Ins...", "Macromedia D...", "Document1 - ...", and "README - Not...", along with the system clock showing 8:11 PM.
